Directorate General of Mines Safety

No. 530/2296

/EHQ, dated the 01-12-2016

From:

Director General of Mines Safety
Directorate General of Mines Safety,
P.O & Distt: Dhanbad - 826 016,
Jharkhand (India).

To

Shri Wolfgang Reisser - Director
M/s. Caterpillar Global Mining Europe GmbH,
Industriestrasse 1, 44534 Lünen ,
Germany.

Sub:- DGMS approval under Regulation 181(3) of the Coal Mines Regulations, 1957 for Flameproof and Intrinsically safe electrical equipment associated with longwall package (as mentioned in Annexure-B) manufactured by M/s. Caterpillar Global Mining Europe GmbH, Germany for use in Adriyala Project of M/s. SCCL.

IDENTIFICATION MARK

DGMS APPROVAL No. 713 of 2016

Dear Sir,

Based on the performance report of the Director (E&M), M/s. Singareni Collieries Co. Ltd., Khammam (A.P.) and test reports of the various flameproof and Intrinsically Safe Electrical equipment to be associated with Longwall Package (as mentioned in Annexure-B), I hereby accord approval for the same for a period of **five (05) years from the date of issue of this letter** for use in Adriyala Project of M/s. Singareni Collieries Co. Ltd., subject to compliance with conditions stipulated in Annexure-A.

The application for renewal should be made at least **three (03) months** before the date of expiry of the approval.

Yours faithfully,

(Rahul Guha)
Director General of Mines Safety

Encl : Annexures - A&B.

DGMS approval No.....715 of 2016 issued by Directorate's letter No.....530/2296/EHQ dated.....01-12-2016

Conditions for DGMS approval under Regulation 181(3) of the Coal Mines Regulations, 1957 for Flameproof and Intrinsically safe electrical equipment to be associated with longwall package (as mentioned in Annexure-B) manufactured by M/s. Caterpillar Global Mining Europe GmbH, Germany for use in belowground Coal Mines.

1. The Longwall Package shall carry conspicuously in a permanent manner the aforesaid identification mark, i.e. "DGMS APPROVAL NO.....715.....OF 2016 approved by Directorate's letter No.....530/2296/EHQ dated.....01-12-2016" as below:

2. This approval is site and user specific for use at Adriyala Project of M/s. Singareni Collieries Co. Ltd.
3. The relevant provisions of the Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010 shall be complied in all matters relating to the installation, operation and maintenance of the equipment.
4. All covers, doors/access covers of the electrical equipment mounted on the equipment, on opening/removal which may expose live internal conductors, shall have warning instructions either by raised lettering or by other suitable means against such opening/removal of covers, doors and access covers, without isolating supply of energy to the equipment from its source.
5. Any replacement of parts required for maintenance of the equipment which is directly or indirectly connected to the flameproof features thereof, shall be supplied by the manufacturer as and when required.
6. The plug and socket assembly affixed to the equipment will be so interlocked as to prevent withdraw of plug from the socket while alive.
7. The electrical equipment associated with the machine shall be checked by Electrical Supervisor of the mine for their flameproofness. The condition of cables in the machine shall be checked at the beginning of each working shift and the findings thereof entered in a bound-paged book maintained for that purpose, which shall be duly signed by the Electrical Supervisor with the date.
8. While using radio remote control to operate the shearer, and if the portable control unit is taken out of transmitting range, power should be automatically cut off from the shearer.
9. All sensing devices shall be regularly tested and, routinely calibrated or verified to ensure correct operation and a record of the same shall be maintained.
10. The user shall furnish the performance report of the equipment directly to this Directorate after one (01) year of actual use.

Contd... P-2

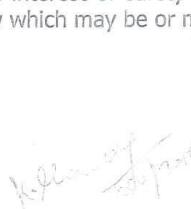

*R. Palit
2016*

11. (a) The customer shall be supplied the copy of this approval letter, the test report from the testing laboratory with the lab certified drawing , an extract of the condition & special conditions, maintenance schedule, if any, recommended by the testing laboratory in their test report(s) so as to maintain safety features of apparatus/equipment.
(b) The customer shall also be provided a copy of factory test report along with drawings, instruction manual on the installation, operation and maintenance of the equipment and spares parts catalogue at the time of delivery of the equipment.
12. The electrical and mechanical personnel who may be entrusted with the responsibility for the use, maintenance and operation of the machine shall be given adequate training for so much of the work may be enjoined on them.
13. The users in consultation with the manufacturer, shall frame a code of practice to provide the guidance to persons employed for installation, operation and maintenance of every equipment associated with Longwall Package, as well as to provide safety, health, convenience and discipline of persons so employed.
14. Reliability monitoring (condition monitoring) of the Longwall equipment shall be carried out by the user with guidance from the manufacturers to increase the operational safety of the personnel.
15. A credible Risk Assessment report which effectively identifies, assesses and controls hazards relating to the safety of persons associated with the operation, maintenance and testing of the equipment.
16. Automatic prestart warning devices shall operate prior to the movement of the shearer, AFC, BSL, etc.
17. An automatic control system to prevent hitting the raised sections of the pan line at face ends or other obstructions by the lump breaker fitted with shearer shall be provided.
18. All the operating controls shall be clearly marked and ergonomically designed conforming to any International Standards.
19. Periodical testing of the brakes of shearer shall be conducted by a competent person as per the manufacturer's guidelines and the same shall be recorded in a separate bound paged book or soft copy. The shearer shall come to a controlled stop whilst travelling at maximum speed down the maximum allowed operating gradient.
20. A suitable fire fighting system shall be arranged near to the equipment.
21. The automatic shut down of the shearer drum rotation if the water pressure or flow rate drops below the minimum recommended value shall be maintained.
22. All electrical and mechanical safety critical components that are essential to the operation of the automatic shutdown system or emergency stop system shall be replaced or overhauled at intervals recommended by the manufacturer and a record of the same shall be maintained.
23. The temperature and humidity of surrounding air at the equipment installed location shall be maintained as per the recommendations of the manufacturer, by providing suitable ventilation.

Contd... P-3

24. Test certificates as per latest standards for Temperature Sensor and Morley Meters shall be submitted to this office within a period of three months from the date of issue of this approval.
25. The automatic emulsion mixing system and its recording system shall be meticulously maintained at pump station. The Safe Operating Procedures for working / interacting with high pressures shall be framed and followed.
26. Any modification on the equipment shall not be carried out without prior approval of this Directorate.
27. The supplier shall provide technical assistance and shall also maintain close contact with the users to get themselves fully apprised of any difficulty that may be faced by the user with regard to the use, maintenance and operation of the equipment.
28. All fire resistant high pressure hydraulic hoses and fire resistant hydraulic fluid used in the equipment shall comply with the general order No. DGMS/Mech/Tech. Cir (Approval) No. 04, Dhanbad, dated 13.02.2015 and general order No. DGMS/Mech/Tech.Cir (Approval) No. 02, Dhanbad, dated 13.02.2015.
29. The cables connecting with Equipment shall conform to the provisions of the DGMS Tech. Circular (Electrical) No. 12 dated 25.05.2015 and corrigendum vide DGMS Tech. Circular (Electrical) Approval No. 01 dated 19.02.2016 in addition to the special requirement, if any, specifically for safe operation of the equipment.
30. The Audio Visual Alarm used in the machinery shall conform to the standards and parameters as prescribed in the DGMS Tech. Circular (Electrical), Approval No. 21 dated 05.10.2015.
31. If there occurs any revision of standards applicable to the product/equipment , the manufacturer shall get the product/equipment tested as per revised standards and submit test reports to the customer for information and to this Directorate for further approval/renewal.
32. While seeking renewal of approval, valid BIS license in the case of Indian manufacturers and in case of foreign manufacturers QAR/QAN for the associated flameproof / weatherproof / intrinsically safe apparatus, as may be applicable, shall be submitted.
33. The approval is accorded for a period of five (05) years from the date of issue of this letter.
34. At the time of applying for renewal, details of supply with name of mines, purchase order and date shall be furnished with the application.
35. If at any time any of the conditions subject to which this approval has been granted, are violated or not complied with, this approval shall be deemed to have been revoked with immediate effect.
36. The above approval may be amended or withdrawn at any time, if considered so necessary in the interest of safety and is being issued without prejudice to any other provisions of law which may be or may become applicable at any time.

(Rahul Guha)
Director General of Mines Safety
